RE: F-500

Dear Mr. Hasness:

This is in response to your request for a letter commenting on the referenced product.

I have reviewed the information you have submitted. Based on this information, the Department of Pollution Control and Ecology has no objection to the use of this material, F-500, on petroleum hydrocarbon spills or fires that have occurred on land or hard surfaces. The use of this product on or in waters of the State of Arkansas or in areas where it may reach waters of the State via storm drains, ditches or overland flow must have prior approval from this Department. This letter of no objection does not constitute approval, certification, authorization, licensing or promotion of the referenced product.

Please contact me if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads "Bruce Kirkpatrick".

Bruce Kirkpatrick
Assistant Chief
Water Division
